Featuring the following presentations by SURP students:

“The Effects of Oxidative Stress on Smooth Muscles Cells from Bicuspid Aortic Valve Patients”
Julianna Buchwald | Mentor: Julie Phillipi, PhD

“Elucidating the Physiological Function of Neuroglobin: The Reduction of Cytochrome C by Neuroglobin”
Rheanne Gatmaitan | Mentors: Mark Gladwin, MD and Jesus Tejero, PhD

“Development of ”Artificial” Stem Cells for Vascular Engineering: A Replacement for Autologous Cell Use”
Dominic Pezzone | Mentor: David Vorp, PhD

“Benefits, Risks, and Cost-effectiveness of Coronary Angiography after Out-of-hospital Cardiac Arrest Based on Early Neurologic Prognosis”
Michael Scutella | Mentor: Cameron Dezfulian, MD

“Ultrasound and Microbubble-Mediated Delivery of Therapeutic Nucleic Acids to Promote Angiogenesis”
Daniel Whitehurst | Mentor: Flordeliza Villanueva, MD, FACC

All are welcome! Refreshments will be provided.
